times the normal bill, the Director, or his designee, may provide an adjustment reducing the bill amount that is more than four (4) times the normal bill by seventy-five (75) percent.

- The customer may pay the adjusted water and/or sewer bill in equal payments over a twelve (12) month billing period in addition to the regular applicable monthly billing.
- No adjustments will be made to the portions of the bill representing the fixed charges, such as the Administrative or Debt Service charges.

An illustration: A customer’s normal (variable) average water and/or sewer bill is $50.00 and the customer receives an unusually high water bill for $500.00 that is caused by undetected damage to the water service line. The adjusted bill amount would be $275.00 (4 x $50.00 = $200.00; 75% x $300 = $75.00 for a total of $275.00).

The Director’s, or his designee’s determination of eligibility for a leak adjustment is a final disposition of the matter; provided, however, any leak adjustment totaling $2,000 or more shall be presented by the Director to the Commission for final determination.
