

Brunswick – Glynn County Joint Water & Sewer Commission

January 15, 2019

**PROJECT: RFP – Engineering & Design Services for SPLOST 2016
Collection System Modifications to the City of Brunswick LS4003 Basin for
the Brunswick-Glynn Joint Water & Sewer Commission
Solicitation No. 19-006**

ADDENDUM: Three (3)

DUE DATE: Wednesday, January 23, 2019 -- NOON

**THIS ADDENDUM IS FOR THE PURPOSE OF ANSWERING THE FOLLOWING
QUESTIONS:**

QUESTION 1: Since the lift station and gravity sewer assessment will reveal the modifications/upgrades to be made to meet JWSC's desired level of service, is it the intent of the JWSC responders to the RFP to come up with an Engineer's Opinion of Probably Construction Cost for modifications/upgrades yet to be determined and approved by JWSC?

ANSWER: It is understood there is not a firm, defined scope on the end product. Responding firms should present an EOPC based on a reasonable scenario as defined by them. Not looking for a crystal ball reading. An EOPC based on defined assumptions gives insight into what we can expect from the firm.

All applicants under this Request For Proposal are kindly requested to acknowledge receipt of this Addendum in original only.
