

BRUNSWICK-GLYNN COUNTY JOINT WATER & SEWER COMMISSION

July 20, 2020

PROJECT: REQUEST FOR PROPOSAL NO. 20-036 ENGINEERING SERVICES FOR COMMUNITY ROAD WATER AND SEWER EXTENSION

ADDENDUM: Two (2)

DUE DATE: TUESDAY, JULY 28, 2020 12:00PM, NOON

THIS ADDENDUM IS FOR THE PURPOSE OF ANSWERING THE FOLLOWING QUESTIONS:

- 1) **QUESTION: Please confirm that prior projects completed for the JWSC should NOT be included as references or relevant projects.**

ANSWER: That is correct. Please include in your relevant project list those projects that were not completed for the JWSC.

- 2) **QUESTION: Please describe, if known, anticipated points of connection to the existing sewer system.**

ANSWER: There are no known anticipated points of connection. The JWSC expects the engineer to determine this and make sure the downstream segments will handle the new flow as well. The engineer should plan for all existing platted lots with recommendations as to if lot size can be subdivided

- 3) **QUESTION: SUE Level A is typically performed at specified locations of concern provided by the utility owner. For estimating purposes, please specify where the JWSC would like SUE Level A to be performed or how many locations (ex, at all corners of intersection).**

ANSWER: Please perform SUE Level A at any major crossing where the engineer determines utility conflicts may arise.

- 4) **QUESTION:** Does the JWSC expect required permitting with CSX Transportation or Norfolk Southern Railway? It does not appear that any utility extensions will cross railroad ROW's.

ANSWER: The engineer is to determine if railroad permitting is required based on proposed sewer layout and points of connection to the existing sanitary sewer system.

- 5) **QUESTION:** Is there a water model developed for this area and if so will the engineer be updating it as part of the PER?

ANSWER: There is currently no existing model for this area, therefore there will be no requirement from the consultant for model updates.

- 6) **QUESTION:** Has the JWSC ever used pipe bursting to replace pipes?

ANSWER: Yes.

- 7) **QUESTION:** How many projects should be presented as similar references to this project?

ANSWER: Please provide at least 3 but no more than 5 similar projects while maintaining the 50 page proposal limit.

- 8) **QUESTION:** Is there a page limit for the proposal excluding forms, sample of construction site observation report, covers, table of contents, tabs, and other supporting documents?

ANSWER: Yes, please limit your proposal to 50 pages excluding required forms.

- 9) **QUESTION:** On page 15 of the RFP documents, Section 8.0 INDEMNIFICATION Language, could the JWSC please change "due to any act or omission of the said proposer" to "due to only any negligent act or omission"?

ANSWER: No, this language will not be changed and remains as presented in the RFP documents.

- 10) **QUESTION:** Do consultants attend the council or commission meetings during the project.

ANSWER: No, consultants do not typically attend the JWSC Committee or Commission meetings.

11) QUESTION: Does the JWSC have its own set of standards?

**ANSWER: Yes, the JWSC standards are located on our website,
<https://www.bgjwsc.org/departments/planning-and-construction/#planning-documents>**

All applicants under this Invitation for Bid are kindly requested to acknowledge receipt of this Addendum in original only.
