

**The BGJWSC  
contracted  
with M&E  
Construction  
to replace  
your water  
meter today.**

While we expect there to be no issues, if you experience discolored water or air in your line, please turn on an outside spigot or cold water faucet in a bathtub and let it run until clear.

M&E Construction is only responsible for work performed at the meter itself.

The new meter is the same size as your previous meter, resulting in no change in pressure or volume.

For more information, please visit <https://www.bgjwsc.org/meters>

If you have any questions or concerns, please contact BGJWSC Customer Service at 261-7100 or email [info@bgjwsc.org](mailto:info@bgjwsc.org).
