

Facility Construction Project Photos – February 2025

#2406 BASIN 4002 CIPP (IN PROGRESS - TBD)

Facility Construction Project Photos – February 2025

Facility Construction Project Photos – February 2025

1. Drone view of the 8-inch CIPP liner installation at Elm Avenue and Sycamore Avenue intersection.
2. View inside manhole #40020690 at the intersection of Oak Avenue and Sycamore Avenue. The view's 12 o'clock segment has a 10-inch CIPP liner, and the 3 o'clock position has an 8-inch unlined VCP.
3. Bio-Nomic Operators prepare for PreCCTV and cleaning activities at manhole #40023030 next to 1028 Reynolds Street.
4. View inside manhole #40023030 – a robotic camera is placed, and the pipe diameter is field measured and verified prior to liner installation.
5. Bio-Nomic Operators are preparing for an 8-inch short-liner point repair next to 710 Gloucester on Ellis Street.
6. Larry Burton (Bio-Nomic Operator) is performing a post-CCTV inspection at the intersection of G St. and Johnston St.
